

Sinclair Broadcasting's decision to use public airwaves to influence public opinion negatively against a Presidential candidate seems to me to be gross abuse of the privileged use of those airwaves. Further, the trend of consolidated ownership of broadcasting interests nationally endangers the freedom and diversity of opinion intended in FCC licensing regulation.

This blatant attempt to circumvent the public interest for partisan purpose can not be tolerated by the body charged with the protection of the public airwaves. I therefore implore the FCC to enforce prohibitions and review the licenses of all entities participating in this assault on American principles of fairness and broadcast responsibility. Sincerely, Ralph O. Davis
